

LA PETITE ECOLE BILINGUE – THE STEWART BILINGUAL SCHOOL - ACCESSIBILITY PLAN

1. INTRODUCTION

La Petite Ecole Bilingue – The Stewart Bilingual School is a diverse and inclusive community that focuses on the wellbeing and progress of every student and where members of our community are of equal worth.

We value diversity and seek to give everyone in the school an equal chance to learn. Our guiding principle is to identify and break down possible barriers to learning so that all students 'achieve their very best'.

La Petite Ecole Bilingue – The Stewart Bilingual School will be a centre of excellence in learning, where all students, including those with disabilities, are supported and challenged to fulfil high ambitions.

The school's SEND policy and local offer play a substantial role in guiding the school's developing provision for students with special educational needs and disabilities.

2. CONTEXT

The Accessibility Plan addresses the statutory requirements of the Equality Act 2010 and the Special Educational Needs and Disabilities (SEND) Code of Practice of September 2014. These acts place a responsibility on the Governing Body to ensure that the school is socially and academically inclusive. In particular, the Equality Act requires the school to develop a plan to show how it will develop services in the following three areas:

1. To increase the extent to which disabled students can participate in the school's curriculum.
2. To improve the physical environment of the school to ensure disabled students are able to take advantage of education and other benefits, facilities or services provided or offered by the school.
3. To improve the delivery of information to disabled students, so information is as available as it is for students who are not disabled.

3. AIM OF PLAN

All students will have access to appropriate qualifications and will develop the skills and resilience to meet the demands of working, family and community life. Students will demonstrate the empathy and confidence to work with others to achieve a better future.

4. OBJECTIVES

- The objectives of this plan are:
- To ensure all disabled students are fully involved in school life and are making good progress.
- To identifying barriers to participation and find practical solutions to overcoming these.
- To work collaboratively with disabled students and their parents/carers to create appropriate provision, including robust EHCPs where appropriate.
- To increase the confidence, sensitivity and expertise of teachers and support staff when teaching or supporting a wide range of disabled students.
- To meet the requirements of the Equalities Act and the SEND Code of Practice in respect of disabled students.

5. DEFINITIONS

Definition of Disability (Equality Act 2010): "A person has a disability if she or he has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to perform normal day- to-day activities."

Definition of Special Educational Needs (SEND Code of Practice September 2014) - A child or young person has special educational needs if he or she has a learning difficulty or disability which calls for special educational provision to be made for him or her. A child or young person has a learning difficulty or disability if he or she: a) has a significantly greater difficulty in learning than the majority of others of the same age, or b) has a disability which prevents or hinders him or her from making use of facilities of the kind generally provided for others of the same age in mainstream schools. This will include students with medical needs.

6. THE ACCESSIBILITY PLAN

This plan summarises our development priorities in the three areas specified by the Disability Act (see introduction above). The school is also committed to making reasonable adjustments for individual students to ensure all students can be involved in every aspect of school life, in partnership with their families, and that barriers to learning are removed.

However, the school recognise that the building is not suitable for wheelchairs at this moment and will look into solutions in the near future.

TO INCREASE THE EXTENT TO WHICH DISABLED STUDENTS CAN PARTICIPATE IN THE SCHOOL'S CURRICULUM.

Students with SEND (special educational needs or disability) are given access to the curriculum supported by the school's specialist SEND provision and in line with the needs of the individual and the wishes of their parents/carers. Every effort is made to educate students with SEND alongside their peers in a mainstream classroom setting. Where this is not possible, the SENDCO consults the student and parents about proposed flexible arrangements.

The school curriculum is regularly reviewed to ensure that it is accessible to students of all levels and abilities and supports the learning and progress of all students as individuals. This includes learning outside the classroom.

Our Special Educational Needs and Disability Policy, Local Offer and SEND Report outline the provision the school already has in place to support students with special educational needs and disabilities (SEND). This includes: a) Identification of SEND at a very early stage through close liaison with Primary Schools, supported by individual provision maps, strategy sheets and the SEND register. b) Keeping staff fully informed of the special educational needs/disability of any student in their charge, including sharing progress reports, medical reports and student/parent feedback. c) Listening to student and parent/carer views and considering them in all aspects of school life. d) Awareness raising programmes for all students about the range of disabilities in the school, in particular creating a very supportive base for each disabled student within their tutor group. e) Regular training opportunities for staff on SEND and appropriate teaching and learning strategies. f) Increasingly specialised in-class support or guidance from trained TLAs (Teaching and Learning Assistants). g) Specific specialist intervention to build skills (particularly for literacy and numeracy) in small groups and/or adapted timetables. h) Specialist advice from other professionals (e.g. speech and language therapist, school nurse, occupational therapist, hearing impaired service, physiotherapist) on how to adapt the curriculum and teaching strategies for individuals. i) Special access arrangements for internal and external exams. j) Specific target setting and monitoring to ensure all students with SEND make at least sufficient progress and accelerated progress in intervention groups. k) Ready access for parents to staff, with partnerships supported by planned structured conversations and ongoing home-school liaison. l) A structured and dedicated Y6/7 transition programme for vulnerable students m) Specialist advice and guidance to support Y6 transition) Multi-agency support coordinated by the school's Student Support team

Further developments

The School Development Plan 2019-2020 sets out some additional plans to potentially move to new premises that would be more suitable for accessibility needs.

TO IMPROVE THE PHYSICAL ENVIRONMENT OF THE SCHOOL TO ENSURE DISABLED STUDENTS ARE ABLE TO TAKE ADVANTAGE OF EDUCATION AND OTHER BENEFITS, FACILITIES OR SERVICES PROVIDED OR OFFERED BY THE SCHOOL.

The school environment tries to incorporate many features to ensure accessibility to students with certain disabilities. Small classes helping visually impaired pupils to fully participate in the front rows of the class. In addition, teachers are given advice on how to move and arrange furniture, how to manage lighting, noise and visual stimulus, how to create visual timetables etc., so that individual students' needs are met. Similar attention is given to how students' needs can be met on school journeys and visits.

The school will carry out an accessibility audit when possible in advance of reviewing this policy.

Other planned modifications to the school environment to meet the needs of disabled students and visitors to the school are as follows: a) There is currently one floor which cannot be fully accessed on the first floor.. b) in the event of a pupil not being able to take the stairs following an accident, for a temporary period of time, arrangements will be made to carry the lunch to him to the classroom.

7. RESPONSIBILITIES All staff are responsible for identifying and removing barriers to learning for disabled pupils. All leaders are responsible for improving accessibility within their area of responsibility. The Governing Body is responsible for the approval of this plan. □ The Headteacher is responsible for ensuring the resourcing, implementation and updating of this plan. □ The SENCO is responsible for ensuring that all current students' needs are covered by this plan and for monitoring the effectiveness of the plan in meeting disabled students' needs.

8. REVIEW

This Accessibility Plan has the status of a policy and is reviewed every 3 years. The views of disabled students and parents will feed into the review.
